## Things You Probably Didn't Know About Nuclear Energy in Pennsylvania

1

### FOUR NUCLEAR ENERGY PLANTS

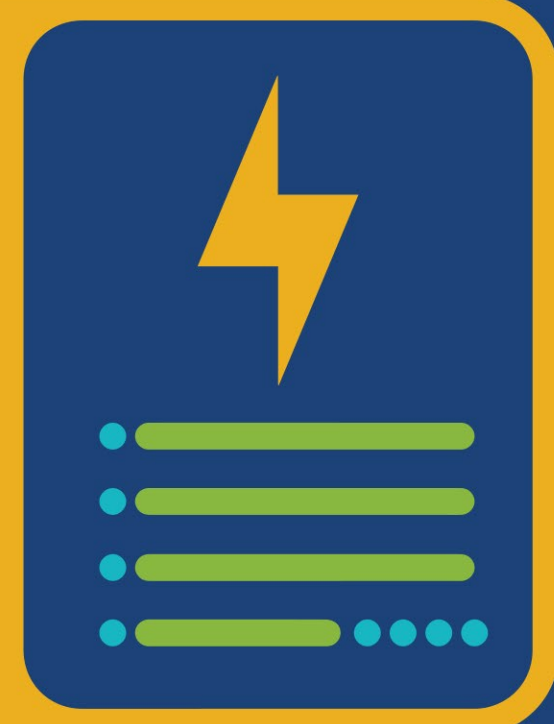

34%

of Pennsylvania's electricity

91%

of its clean power

Without it, consumers would spend  
**\$6.6 BILLION**  
 more over the next 10 years and would need to  
 import about 12% of its total electricity  
 needs from other states.

2

3

— Nuclear supports nearly —

**15,000 jobs**

— across the state & —

**\$65 million**

— in state tax revenue —

The operations of 4 nuclear plants avoid

**34 MILLION**

tons of carbon emissions each year,  
 the equivalent of keeping

**7 MILLION**

cars off the road.
